

Syllabus

English for IT A2 certification

The English for IT A2 / GSE 22–35 certification exam covers the following topic areas and measures the following skills:

Section 1 Use of English

- Demonstrate understanding and appropriate use of verb tenses.
- Recognize and use nouns, adjectives, and quantifiers accurately.
- Apply modal verbs, prepositions, and pronouns effectively in context.
- Use adverbs, conjunctions, and expressions to describe actions and relationships.

Section 2 Listening

- Identify details in spoken texts that describe people, places, or situations, using adjectives and adverbs of manner.
- Understand spoken recommendations or future plans, focusing on modal verbs and future forms.
- Understand spoken cause-and-effect statements and references to quantity in familiar contexts.
- Follow spoken information about routines, experiences, and locations.

Section 3 Reading

- Identify descriptions of people, places, and situations in written texts.
- Identify cause-and-effect relationships and references to quantity in written texts.
- Understand written advice, suggestions, and references to temporary or planned actions.
- Identify references to time, place, routines, and experiences in written texts.

Section 4 Writing

- Write short descriptions of people, places, or things.
- Write simple sentences explaining reasons and quantities.
- Write short sentences or very short paragraphs giving advice, making suggestions, or describing temporary or future actions.
- Write short sentences or paragraphs about experiences, routines, locations, and habits.

Section 5 Speaking

- Describe and compare digital tools, routines, and basic IT resources using simple and accurate language.
- Give and respond to advice or suggestions for common IT-related problems.
- Talk about ongoing digital tasks and simple plans, with basic reasons where needed.
- Talk about past digital experiences and give simple opinions about them.
